SKILLS

Languages: Java | JavaScript | PHP | C++ | SQL | VBA

Frameworks & Libraries: Spring Boot | Spring Security | Spring Data JPA | React | Tailwind CSS

Databases: MySQL | Microsoft SQL Server | MongoDB

Testing: JUnit | Mockito | AssertJ

Tools: Docker | Git | GitHub | Postman | Swagger

PROJECTS

Full Stack Developer

DentalCare | React JS, CSS3, Spring Boot, Spring Security, Spring Data JPA, MySQL, Redis, JWT

- Dental appointment system that enables clinics to manage patient records, schedule appointments, and streamline operations. It features secure online booking for patients, with every appointment delivered straight to the clinic.
- Developed the **Spring Boot** backend with **Spring Security**, **JWT** authentication, and **MySQL**, and built a responsive **React** and **CSS3** frontend for an intuitive booking experience.

Full Stack Developer

Roomance | React JS, Tailwind CSS, Spring Boot, Spring Security, Spring Data JPA, MySQL, Redis, JWT

- Staycation booking system that enables hosts to manage property listings, handle reservations, and streamline bookings. Hosts list their properties, and guests browse and book them through a responsive, easy-to-use interface.
- Developed the backend with **Spring Boot** and **RESTful APIs** backed by **MySQL**, and built a responsive **React** frontend with **Tailwind CSS**.

Full Stack Developer

Internflo | HTML5, CSS3, PHP, JavaScript, MySQL, Third-Party AI & API Integration

- Internship portal connecting University of Caloocan City students with opportunities that match their courses and skills. It features an OJT Monitoring System for advisors to track internships and help students find roles that fit them.
- Built an internship matching platform with **PHP**, **MySQL**, **HTML5**, **CSS3**, and **JavaScript**, using third-party **AI (NLP)** to match students to roles.

EXPERIENCE

System Support Associate

August 2025 - Present

KMBI | MongoDB, MS SQL, Application Support, Functional Testing, Quality Assurance

- Provided **Application Support** and troubleshooting for web and mobile applications, performing **Quality Assurance** and **Functional Testing** to catch issues before release.
- Managed **MS SQL** and **MongoDB** databases for backups, data retrieval, updates, migration, and cleansing.

Excel VBA Developer Intern

May 2024 - July 2024

Commission on Audit | Microsoft Excel, VBA, Excel Macros

- Excel-based financial recording system that enables users to manage financial records and streamline record keeping. Users add, view, update, and delete entries through a simple interface that cuts repetitive manual work.
- Developed the system with **VBA Macros** to automate **CRUD** operations, and designed a user-friendly Excel interface that simplifies data entry and improves encoding efficiency.

EDUCATION

University of Caloocan City - Congress

January 2021 - April 2025

BS in Information Systems | Scholar
