EXPERIENCE

System Support Associate

Aug 2025 - Present

KMBI | MongoDB, MS SQL, Application Support

- Provided application support and troubleshooting for web and mobile applications, resolving system-related issues for branch offices.
- Performed QA and functional testing by identifying, documenting, tracking bugs, and validating fixes.
- Managed MS SQL databases through regular backups and queries for data retrieval, updates, migration, and cleansing.
- Followed Agile development practices by participating in daily stand-ups and sprint meetings to coordinate tasks and provide progress updates.

Excel VBA Developer Intern

May 2024 - July 2024

QAR Summary System | Microsoft Excel, VBA, Excel Macros

- Developed an Excel-based financial recording system using **VBA Macros** to simplify and streamline the encoding of financial amount records.
- Automated data entry and record management through **VBA**, reducing repetitive manual tasks and improving encoding efficiency.
- Designed an easy-to-use Excel interface for encoding and organizing financial records, making data management more efficient for users.

PROJECTS

Full Stack Developer

May 2026 - Present

DentalCare | React, Tailwind CSS, Spring Boot, Spring Security, Spring Data JPA, MySQL, Redis, JWT

- Built **RESTful APIs** with **Spring Boot** and **Spring Data JPA**, using **MySQL** for data persistence and implementing **JWT** authentication, **Spring Security**, **Resend** for email notifications, and **Redis** for caching and rate limiting.
- Designed a responsive booking interface using **React** and **Tailwind CSS** for a seamless appointment management experience.
- Containerized the application with Docker for consistent development and deployment.

August 2024 - March 2025

Full Stack Developer

Internflo | PHP, JavaScript, MySQL, Third-Party AI & API Integration

- Built a responsive user interface using **HTML**, **CSS**, and **JavaScript** for an intuitive and seamless user experience.
- Developed backend functionality using **PHP** and **MySQL** for data management and application logic.
- Integrated **Google Maps API**, **Semaphore**, **ZegoCloud**, and **Chatbase AI** for mapping, SMS notifications, video communication, and AI chatbot functionality, along with a matching algorithm to connect students with internship opportunities based on skills and location.

SKILLS

Languages: Java | PHP | JavaScript | SQL | VBA

Frameworks & Libraries: Spring Boot | Spring Security | Spring Data JPA | React | Tailwind CSS

Databases: MySQL | MS SQL | MongoDB

Tools: Git | GitHub | Postman | Swagger | IntelliJ IDEA | VS Code | Microsoft Excel

Cloud & DevOps: Google Cloud | Docker | Vercel | Railway
