EXPERIENCE

System Support Associate

August 2025 - Present

KMBI | MongoDB, MS SQL, Application Support

- Provided **Application Support** and troubleshooting for web and mobile applications, resolving system-related issues for branch offices.
- Performed **QA** and functional testing by identifying, documenting, tracking bugs, and validating fixes.
- Managed **MS SQL** and **MongoDB** databases through regular backups and queries for data retrieval, updates, migration, and cleansing.
- Followed **Agile** development practices by participating in daily stand-ups and sprint meetings to coordinate tasks and provide progress updates.

Excel VBA Developer Intern

May 2024 - July 2024

Commission on Audit | Microsoft Excel, VBA, Excel Macros

- Developed an Excel-based financial recording system using **VBA Macros** to simplify and streamline the encoding of financial amount records.
- Automated data entry and record management through **VBA**, reducing repetitive manual tasks and improving encoding efficiency.
- Designed an easy-to-use Excel interface for encoding and organizing financial records, making data management more efficient for users.

PROJECTS

Full Stack Developer

May 2026 - Present

DentalCare | React JS, CSS3, Spring Boot, Spring Security, Spring Data JPA, MySQL, Redis, JWT

- Built **RESTful APIs** with **Spring Boot** and **Spring Data JPA**, using **MySQL** for data persistence and implementing **JWT** authentication, **Spring Security**, **Resend** for email notifications, and **Redis** for login rate limiting.
- Designed a responsive booking interface using **React JS** and **CSS** for a seamless and intuitive appointment management experience.
- Containerized the application with **Docker** for consistent development and deployment.

Full Stack Developer

August 2024 - March 2025

Internflo | HTML5, CSS3, PHP, JavaScript, MySQL, Third-Party AI & API Integration

- Built a responsive user interface using **HTML5**, **CSS3**, and **JavaScript** for an intuitive and seamless user experience.
- Developed backend functionality using **PHP** and **MySQL** for data management and application logic.
- Integrated third-party APIs for mapping, SMS notifications, video communication, and AI chat, along with a matching algorithm connecting students to internships based on skills and location.

EDUCATION

University of Caloocan City - Congress

January 2021 - April 2025

BS in Information Systems | Scholar

SKILLS

Languages: Java | JavaScript | PHP | SQL | VBA

Frameworks & Libraries: Spring Boot | Spring Security | Spring Data JPA | React | Tailwind CSS

Databases: MySQL | Microsoft SQL Server | MongoDB

Testing: JUnit | Mockito | AssertJ

Tools: Docker | Git | GitHub | Postman | Swagger
